ON YOUR TEAM.

AmWINS ADVANTAGE, POWERED BY WE CARE®, IS YOUR ANSWER FOR AFLAC GROUP INSURANCE PRODUCTS

AmWINS ADVANTAGE OFFERS FOUR DISTINCT BENEFITS FOR ORGANIZATIONS

Cost Control

Employees strongly consider access to quality benefits when deciding to work for an employer, even if it means paying for the benefits on their own. By supplementing an existing core benefits offering with access to voluntary products, you can hire and retain quality talent. AmWINS Advantage offers Aflac Group's Voluntary Accident, Critical Illness, Hospital Indemnity and Short-Term Disability (partner products) to help your employees obtain the coverage they desire.

Administrative Efficiency

It's a frequent occurrence: Human Resources departments are looking for efficiencies to help them meet their responsibilities. Aside from automated enrollment, AmWINS Advantage provides administrative support to minimize or eliminate employee questions that cross their desk, and immediate account reconciliation through its WeCare® platform. Having accurate, real-time in-force policy information at the tip of your fingers can free up time for other responsibilities.

Diverse Benefits for a Diverse Population

Millennials now make up the largest generation of the workforce. Still, employers must consider the needs of their Gen Xers, Boomers and the emerging Gen Z. A diverse product offering, combined with easy online administration and call center support helps increase participation, leading to satisfied employees.

Customer Support

AmWINS Group Benefits distributes, administers and services programs and services to employers and their employees across the United States. Our employees share a singular focus of supporting the customer with helpful information, technology that works, and a passion for delivering quality customer service.

AmWINS Advantage provides clients with advanced technology and passionate customer service, resulting in an improved enrollment and administrative experience. AmWINS Advantage is powered by WeCare®, an intuitive enrollment automation tool, and backed by AmWINS Group Benefits®, a leading administrative services firm with more than 25 years of experience.
